

The Ambassador Range

The ultimate in comfort, styling and luxury

Brisa[®] fabric takes Ambassador comfort to total luxury

Brisa[®] is a technologically advanced material, introducing a whole new standard for style, comfort and durability. No material comes closer to the natural aesthetics of genuine leather. There is nothing softer than Brisa[®].

Buckskin

Hollyhock

Black Onyx

Brisa offers real advantages over leather through its unique climate control technology that resists temperature change and allows the material to breathe, keeping you comfortable at all times.

Experience the difference:

- Luxuriously soft and supple
- High colourfast rating
- Breathable fabric
- Water resistant
- More durable than vinyl and leather
- Stain and scratch resistant
- Environmentally sound
- Animal-friendly leather alternative

Experience Zero Gravity

The Ambassador range of dual motor riser-recliners is the first to incorporate the unique MaxiComfort™ zero gravity positioning technology.

The MaxiComfort™ zero gravity position approximates the weightless conditions of outer space, in which the body experiences an absolute minimum of internal and external stresses. Your legs are elevated above your heart, creating an open angle between your torso and thighs. This position puts your back in the correct resting posture, where the S-curve of your spine is properly maintained and virtually all pressure on the lower back is relieved.

In this position lung capacity is also expanded to ease breathing and boost oxygen levels. Circulation improves, minimising stress on the heart and reducing muscle fatigue.

Benefit from resting in the MaxiComfort™ zero gravity position:

Correct spinal alignment

The proper neutral position for the S-curve of your spine is maintained along the three regions of your back: cervical (neck), thoracic (upper back) and lumbar (lower back).

Back pressure relief

The lumbar region (lower back), especially, is relieved of almost all pressure. Disc compression is greatly reduced or eliminated completely.

Expanded lung capacity

Via the open angle created between torso and thighs, breathing is improved, thereby increasing the oxygen levels in the blood.

Improved circulation

With the legs elevated above the heart, stress on the heart is minimised, and the oxygen-rich blood being pumped to fatigued muscles helps them to recover faster.

The neutral position

The neutral posture position maintains the four natural curves of the spine to minimise strain on supporting muscles and ligaments. This is the optimal posture to prevent back and muscle pain.

Difficulty in getting up?

It is often difficult to get up as a result of reduced muscular strength and impaired functioning of the joints. The Ambassador makes sitting and standing so much easier with its smooth lift and tilt action.

Are you sitting comfortably?

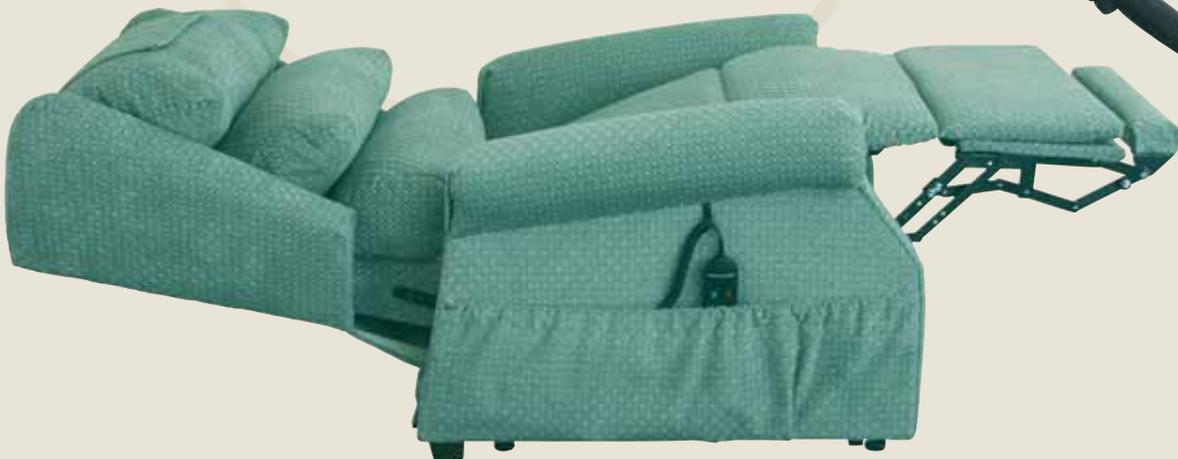

Experience total comfort when reading, chatting, working or watching television. Feel rested by lowering the back angle. Move the leg rest or back rest independently. When the leg rest is raised on its own the seat base will tilt slightly to maintain the correct seating position.

Recline for relaxation

Lie back and unwind at the touch of a button. The reclining action is so smooth and quiet you will feel more relaxed from the moment you recline.

MaxiComfort™ hand control
with Smart Tek technology

The ultimate experience

With all the benefits of the MaxiComfort™ zero gravity position, the body experiences an absolute minimum of internal and external stresses. Fatigue melts away and the sense of weightlessness promotes a feeling of well-being and total relaxation.

Features

The Ambassador Range is available in three sizes – small, medium and large. Designed and built by specialists in the manufacture of riser-recliners. This outstanding riser-recliner is available in a choice of two fabrics – Diamond (five colours) and Brisa (three colours).

Arm rest covers (standard)

Luxurious head rest pillow (optional)

Leg rest extension (optional)

All Ambassador models feature:

- MaxiComfort™ technology
- Smart Tek
- Arm rest covers
- Removable back rest
- Quick-release hand control
- Magazine pocket
- Battery back-up (power failure)

Also available with:

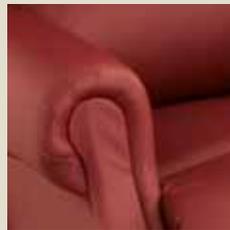

- Heat and massage
- Leg rest extension
- Head rest pillow
- Castors (lockable)

Brisa Buckskin

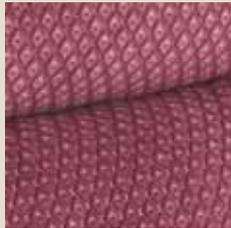

Brisa Black Onyx

Brisa Hollyhock

Diamond Sapphire Blue

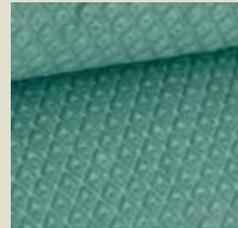

Diamond Cherry

Diamond Mink

Diamond Paprika

Diamond Jade
